

All for shops and warehouses

CASH DESKS

01 CASH DESKS

KSG line cash desks allow to easily create cashier's workstation and adjust it to the layout of the premises and individual needs.

In order to simplify your choice, we offer six basic option layouts of cash desks. Options KSG-100, KSG-200, KSG-400 and KSG-600 can be used as separate, fully functional workstations.

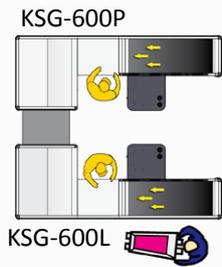

Options KSG-300 and KSG-500 are mainly used to build cash desk sets – for “tandem” type systems, as shown on page 2.

You will find a detailed presentation of other “basic” options on pages 3 to 14. They are always fully developed cashier's workstations, which can be equipped as needed, by using the offers from the category “Accessories” (page 15 – 23). You will find a detailed presentation of other “basic” options on pages 3 to 14. They are always fully developed cashier's workstations, which can be equipped as needed, by using the offers from the category “Accessories” (page 15 – 23).

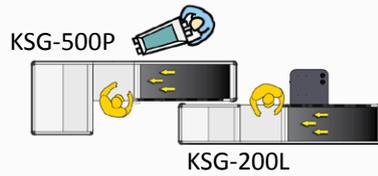

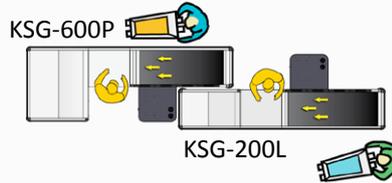

The only element, which should always be included in the basic option of the KSG cash table series in order to create a fully functional cashier's workstation, is the cashier's table (page 16).

The diversity of accessories allows us to successfully implement a wide range of our clients needs. In case if additional equipment is not found in the catalog, but it is necessary - we can incorporate it in the design specially for your needs.

FOOTHILS

KEYBOARD TRAYS

If the electronic cash register system is equipped with a keyboard and display, to be installed vertically, it is very convenient to install them on special pallets that are most often placed on the cashiers desk plexiglass shield.

Keyboard Tray installation examples can be seen in the drawings on the left.

Keyboard tray size 240x150mm (symbol: AK-AC000S)

Keyboard tray and display size. 305x150mm (LEFT – symbol: AK-AC5L; RIGHT - symbol AK-AC5P)

MANUAL SCANNER HOLDER

In the case of need be hung manual scanners cashier workplace, we offer table shield attachable holder (symbol: AK-AD000S)

SEPARATORS „NEXT CLIENT”

Each cash register table base is equipped with a place for separators “Next customer” and with three separators (symbol: AK-A005). If need more separator, they must be ordered separately.

CONTROL PEDAL CASING

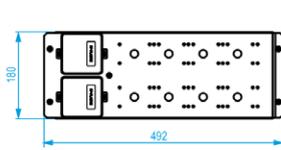

The control pedal has been included in the cash desk-based equipment. If the foot pedal control is an essential way of working the cashier, then can be used to improve the ergonomics of the pedal fitting casing (symbol: AK-A55S500).

FOOTHILS

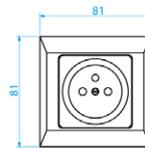

If the cashier is using the automatic mode (photoelectric cell management), tad komforta palielināšanai darba then increase the comfort of jobs can be equipped with adjustable carpet. We offer two models:

- with adjustable pitch angle(symbol: AK-AA05SS)
- with adjustable angle and height (symbol: AK-AA10SS)

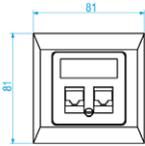

19 EXTRA SOCKET

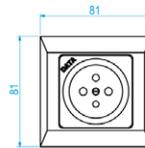

Connector panel AK-PAA250S

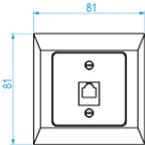

Socket ~ 230V AK-P00000500

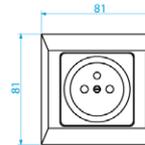

Network socket Ethernet AK-P00000645

Socket ~ 230V DATA AK-P00000640

Network socket AK-P00000650

External socket ~ 230V with cover AK-P00000665

CONNECTOR PANEL

Each cash register desk base is equipped with a connector panel with two installation boxes, intended for 230V power supply.

Front cabinet standard depth is 500 mm (GP = 500). The connector panel allows to install 8 additional electricity, telephone or computer network socket (Draw. 1). If the cabinet depth = 400 GP, the panel makes it possible to install six additional sockets.

We offer the following socket types:

Network socket with grounding 16a, 230V (symbol: AK-P00000500)

Network socket with grounding 16a, 230V (DATA) (symbol: AK-P00000640)

Ethernet network socket, category 6, 2xRJ45 (symbol: AK-P00000645)

6 section phone socket RJ12 (symbol: AK-P00000650)

Your order must be in accordance with the socket number and placement. The consultant will take care of the necessary housing choices.

CASINGS

A separate module (symbol: AK-KKA05S)

Doubled module (symbol: AK-KKA10S)

Three socket module (symbol: AK-KKA15S)

Four-socket module (symbol: AK-KKA20S)

EXTERNAL SOCKET 230V

If it's necessary to install additional socket 230V cash desk outside (just below the conveyor), use a socket connection with a cover (symbol: AK-P00000665)

MAST

It is an element which primarily serves the treasury board for connection to the necessary cables. The mast is also used for lamp installation information.

Standard features a round masts - \varnothing 50 mm, made of aluminum, length:

L-3000 mm (symbol: AK-MAD0S)

L-3500 mm (symbol: AK-MAD5S)

L-4000 mm (symbol: AK-MAD10S)

L-5000 mm (symbol: AK-MAD15S)

If the cables are connected from the floor below, but also need to install the lamp, we offer the option to use a short mast, positioned in the normal position, with the length L-1600 mm (symbol: AK-MAD20S).

The mast goes through the table surface and attached to the front inside the cabinet. In case of need to affix the mast cabinet side wall must be used in addition to the module (symbol: AK-AD20S).

LAMPS

We offer two types of information lamps, designed for installation on round mast \varnothing 50 mm.

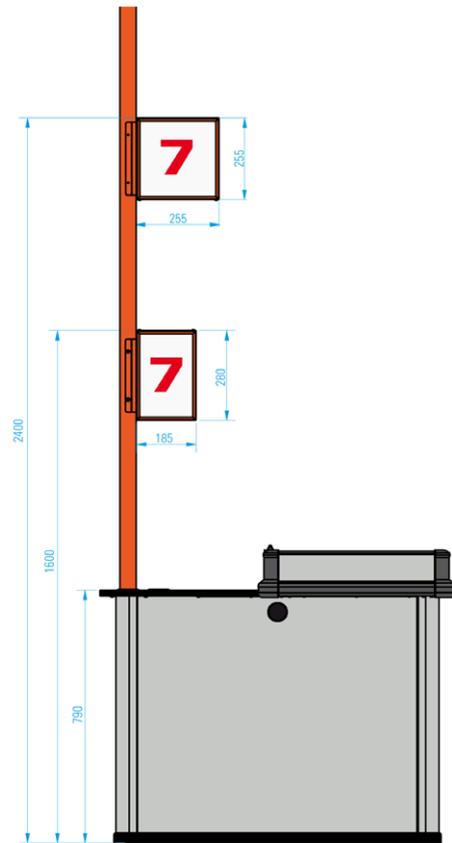

Lamp T (symbol: AK-L15S)

Lamp K (symbol: AK-L5S)

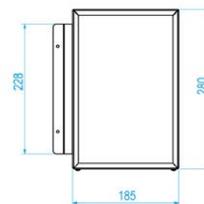

Both types of lamp light the surface is white from the front and bank.

T lamp has 1 socket with thread E27 and it is designed for compact fluorescent lamps with thread E27, with maximum power of 20W(standard 8W).

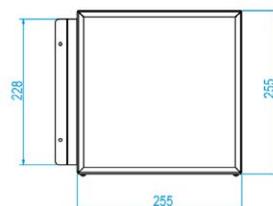

K lamp has 2 socket with thread E27 and it is designed for compact fluorescent lamps with thread E27 with maximum power of 20W (standard 2 x 8W).
